Our Generous Brethren
All Over the World.

Gentlemen:

I come hereby to draw your attention to the important and veteran Institution "Kupath Ramban Colel Polen Warsa Jerusalem", which supports poor needy families.

I shall especially notify the aid of the Institution and its anxiety in favour of Talmidei-Chachomim, whose study of the Torah is their profession, in order to enable them to study the Torah with satisfaction and peace of mind.

In addition to the activities of the Fund in the philanthropical scope, it has activities in the constructive scope, as well: here I have to note the special Fund of "Gemiluth-Chassodim" belonging to the Institution, giving free loans without interest.

With much satisfaction I indicate the quarter of lodgings, belonging to the Institution, which is in the centre of Jerusalem, including hundreds of living units in which poor families are located, - and as well, I indicate the ambitious activities of the Heads of the Fund to add more lodgings of location for families, lacking lodging and means.

I hereby ask you, dear brethren, to aid the Institution and send your allocations generously. Especially, I have turned to the Rabbis, presidents and managers of synagogues, federations and funds to help and aid this important Institution by all means.

I hope to see my apply answered fully, as fit to the order of time and place, and I am with my prayers for your good luck and health.

With the blessings of the Torah
from Zion and Jerusalem,

Isaac Halevi Herzog
